## Political Shows.

Judge Foraker, the candidate for Governor of Ohio, in a speech at Hamilton, clinched a protestation argument with the following telling story: "I know a gentleman in Cincinnati who is engaged in the carriage business. His establishment is a credit to the city. He employs two hundred men, and manufactures more than ten thousand vehicles annually. He sells them, not only all over this country, but all over the world. He told me a few days ago that within the last month he had filled orders from Japan, the West Indies, Australia and Liverpool. I congratulated him upon having such a business. His answer showed that he knew something more than how inexhaustible as that of most judges. To the non professional mind it is a source of endless wonder why judges do not often take it upon themselves to expedite matters by sitting down on pettifogging attorneys who consume time and exhaust patience simply because they are permitted to by an indulgent Court."

## New Hampshire's Choice.

The forty second ballot resulted in the election of Austin F. Pike as United States Senator. The ballot was as follows—whole number of votes cast, 315; necessary to a choice, 158: Edward H. Rollins, 1; Aaron F. Stevens, 1; William S. Ladd, 1; Tillman Marston, 19; Harry Bingham, 112; Austin F. Pike, 181. Pike having a majority, he was declared elected United States Senator for six years from March 4, 1883. The result of the ballot was greeted with tumultuous applause. Pike is sixty three years old, a lawyer in active practice, has been a Representative in Congress, and is considered one of the ablest Republicans in the State.

## Will Pull Up Stake.

The value of the franchise of the Alaska Commercial Company was increased by the San Francisco Assessor from \$115,000 to \$1,000,000, and the company had to pay taxes on the latter amount. They did so under protest, and now say that, having no remedy against such injustice, they will be obliged to remove their business from that city and State to some other point on the coast equally convenient to its operations.

## The Plumas Court Recordership

The California Supreme Court has reversal the decision of the Superior Court of Plumas county in the case of James A. Orr vs. F. P. Whiting. At the last county election Orr was elected County Recorder but Whiting claimed to hold over, which the Supreme Court upheld, and decided he was entitled to the office.

Last Spring some New York and Boston butter dealers sent agents through the West and bought up 10,000,000 pounds of butter, which they stored in Chicago for a "rise" in July. Plenty of rain and good grazing has brought an abundance of prime June and July butter which is selling for less than the price paid for the stored article, and, in consequence, the speculators in "grease" are "left" by \$500,000 to \$1,000,000.

## Leg Broken.

As the local train was turning a sharp curve yesterday afternoon this side of Gold Hill, a man named Mike Conway, who was standing on the rear platform was thrown off and had one of his legs broken. Conway was slightly under the influence of liquor, a fact which accounts for the accident.

A lecture will be delivered in the Congregational Church next Sunday morning by Prof. Foster, upon Nineveh and Babylon. The lecture will be given in parts; the intervals being used in Bible readings of prophecies concerning the two cities. He will also deliver at the M. E. Church, Sunday evening at 8 o'clock P. M., a lecture on "Death and the Life Beyond from a theological standpoint."

Miss McKee, who in company with her nephew, I. B. Wiley, has been on a trip to Yosemite and other points of interest in California returned home yesterday.

Work has been resumed in the Bessemer and Belcher and Gould and Curry mines. All is going on as usual in those mines.

## A Wholesome Rebuke.

Judge Sawyer of the Circuit Court has been lecturing San Francisco lawyers from the bench for their neglect to observe the rules of court, and their disingenuous methods of practice. He finds, says the Bulletin, that attorneys are much given to hampering legal proceedings by policy of delay, by insisting upon technicalities with irritating zeal, and avail themselves of all the quirks and quibbles which, in legal warfare, can be made to cover a retreat or mask an advance. Presumably the Attorneys practising before the United States Circuit Court are not amenable to these charges in any greater degree than attorneys in general, nor is that Court made the scene of their exploits in professional bushwhacking more than other Courts. In taking the bull by the horns in the way he did, Judge Sawyer only showed that his patience with this style of practice is not so inexhaustible as that of most judges.

To the non professional mind it is a source of endless wonder why judges do not often take it upon themselves to expedite matters by sitting down on pettifogging attorneys who consume time and exhaust patience simply because they are permitted to by an indulgent Court.

The average catch of salmon per boat in the lower Columbia river last Saturday was 200—the largest on record.

James Brackett, aged 18 years, was accidentally shot through the heart by another lad Sunday, in Umatilla county, Oregon.

The average daily arrivals at Portland from the East over the Northern Pacific for the past week have been 20 passengers; the average departure for the East by rail, seven.

The stock raisers of eastern Montana have decided to organize a stock association similar to that now in successful operation in Wyoming. The headquarters will be at Miles City.

George W. McNear, principal owner of the extensive wharf and warehouse improvements at Port Costa, Cal., has purchased the Del Hombre Rancho interest of Wm. Piper, for \$100,000.

A committee of 12 was appointed by the Board of Trade of Portland to complete all necessary arrangements for holding a grand celebration there on the completion of the Northern Pacific.

According to its line of grade, the Oregon Short Line railroad will have to construct seven bridges across the Snake river and parts of it between the mouths of Boise and Burnt rivers, a distance of about 70 miles.

A man in St. Helena has a young cow weighing about 450 pounds, from which he has milked over seven gallons a day for several days in succession and made sixteen pounds of butter from her in nine days.

There is a general complaint in Arizona, from the placer mining districts, on account of the sudden and extraordinary falling off of water in the gulch streams. It is not remembered when the water began to fall so early in the season.

The value of the franchise of the Alaska Commercial Company was increased by the San Francisco Assessor from \$115,000 to \$1,000,000, and the company had to pay taxes on the latter amount. They did so under protest, and now say that, having no remedy against such injustice, they will be obliged to remove their business from that city and State to some other point on the coast equally convenient to its operations.

**The Fullback.**

A decision which will interest the ladies, but which shows the male prejudice against "pullback" dresses, has been rendered by Justice Miller, of the Supreme Court. Some time ago a Minnesota girl, arrayed in one of these garbs, attempted to alight from a railroad train, but the garb "catching onto" some object, "pulled back" the young lady, and she fell between the depot platform and sustained severe injuries. She brought suit against the railroad company, but the hard hearted justice ruled that she could not recover anything, on the ground of contributory negligence on the part of the "pull back."

**The Wrong Man.**

A few days ago Lon Rivers, a traveling man, who was on his way from Yellowstone Park, through Beaver Canyon was "held up" by road agents. They made him throw up his hands, then tied him to a wago-wheel and went through his pockets, taking his watch and money. They kept him under guard over night, and discovering he was a Knight of Pythias, released him, returning his money and watch, and telling him he was not the party they were looking for and regretting his capture. They said they were watching for an Eastern fellow traveling that way who had money to spare.

**Omaha Welcomes the President**

A meeting of prominent citizens was held in Omaha on Wednesday to make arrangements to give President Arthur a reception on his arrival in Omaha on Saturday, on his way to the Yellowstone National Park. Committees were appointed and other steps were taken, and a telegram was sent to President Arthur tendering him a reception. This afternoon the private car of President Dillon, of the Union Pacific, was sent to Chicago to convey the Presidential party westward, it having been tendered to President Arthur by Mr. Dillon.

Respectfully yours,  
MANNING & BERRY.  
Reno, June 1, 1883.

## MISCELLANEOUS.

### THOSE WOMEN FOLK.

How Hard-Headed Men Estimate Some Things Which They Don't Understand.

Anybody who has led a domestic life knows how common such things as the backache, and pains in the chest, are among the women who do the work. Often—and perhaps generally—the distresses are borne without much complaint. The women get about, and the machinery of the house goes on. Beyond this, those coarse-grained animals whom New England women call "the men folks," seldom look so long as their wives or daughters are not actually in bed, under the doctor's care, the average thick-skinned husband and father gives the subject no attention. At the same time the poor household drudges—who deserve a better fate—creep around broom or utensils in hand, up stairs down stairs and out-of-doors, doing that woman's work, which is never done." Losses of loved wives and fair girls loss whose suddenness and unexpectedness astonish those wooden-pated husbands and others—fall, seemingly out of a clear sky, and form the logical sequel to the story of neglect.

Now, you men who stand at the heads of ten thousand such homes, allow as to drop a word in your receptive ears. If these women of yours are worth having, they are worth saving. That back-ache—that pain in the chest! What are they but indications of some organic trouble of the kidneys, the heart, or the lungs? End it at once by the application of BENSON'S CAPDINE POROUS PLASTER. It will soothe that nervous distress, drive away that pain, banish that dull, weary back-ache, give new strength to the body and fresh hope to the heart. No other plasters will do this. The Benson's Plaster, however, is not made to sell but to heal. It is a remedy which never broke its promise—and never will.

Your druggist has it. But before paying your 25 cents and putting the plaster in your pocket, look for the word CAPCINE cut in the middle.

IN AND OUT OF TOWN.

What is Being Said and Done in a Small Way.

Hon. W. E. Price was in town yesterday. He has four or five thousand cords of wood to cut in the mountains above Verdi, but cannot get choppers enough to do the work.

A recent fire at Marlette & Folsom's, near Tahoe, cost that firm upwards of \$8,000 before the flames could be checked.

Forest fires are raging in the mountains to the East and South of Truckee; but the Republican thinks there has thus far been no material loss of wood or valuable timber.

The Caledonia picnic takes place in Carson to-day. Quite a number of Reno people will go on the morning train and others will wait for the noon train.

Senator Jones has not gone nor is he going to Alaska. He is now at San Francisco, but will return to the Comstock in a few days. So says the Enterprise.

Several Reno Gentlemen went to Gold Hill yesterday as delegates to the special session of the Grand Lodge, A. O. U. W.

Dr. Harris, of Virginia, was at the depot yesterday on his return from Elko.

A car load of recruits for the U. S. Army went west yesterday morning. They will be assigned to different companies on their arrival at Benicia.

The Western Representatives to the Knights of Pythias Grand Lodge will leave on to-morrow morning's train for Eureka.

Bam Pixley has been appointed train dispatcher of the Carson and Colorado Railroad, with headquarters at Hawthorne.

The Enterprise thinks the cause of so much sickness at, and around Susanville, may be attributed to the use of impure water, which in a great measure at least, is probably true.

Emmet Brannan, the boy who had his skull mashed some time ago by the kick of a horse, at Virginia City, is able to be around. His case was at first pronounced hopeless, but, acting on the theory that as long as there is life there is hope, the physician removed 12 square inches of his skull, and the boy is getting well.

Person Davis, of Carson was in Reno yesterday.

James Watson, late draughtsman for the V. & T., left for Washington Territory yesterday morning.

It is perfectly wonderful how the average American can adapt himself to circumstances. The heated season and dullness of the times have developed in Reno a small army of solitaire players, who may be found at all hours of the day, in cool retreats, absorbed in that fascinating game of chance, totally oblivious to all things earthly.

Track-laying on the C. C., has been completed to Hawley, which will continue to be the "front" until next fall. The company are building a depot, engine house and turn table at this station; a train load of material for this purpose is sent to the front every day.

Mrs. Dr. Waggoner, and her son, Waldo, will leave this morning for Quincy, on a visit to the family of Dr. Barrett.

The east bound passenger train did not arrive yesterday until 2 o'clock in the afternoon.

Hancock, the carpenter, returned yesterday from Mill City, where he has been for two months past at work on Leet & Gould's quartz mill.

## INDIAN TROUBLES AT AUSTIN.

### Infernal Commotions Among the Piutes.

Alf. Doten writes to the Enterprise from Austin that the Piutes residing in that vicinity are having serious trouble. He says: "Bowel complaint, diphtheria, fever and other styles of sickness are among them, and they are losing quite a number, especially children, by death. The poor old medicine man has worked himself nearly to death, and howled himself worse, trying to cure or ward off these diseases, but now lies down and rolls in agonies of despair. They bury their dead and move their campodries, but sickness and death follows them. Many are leaving for Humboldt and Walker river as fast as the railroad will deadhead them through."

### Churchill Items

The farmers are through with haying. Alfalfa is better than for several years, and has not been materially injured by grasshoppers for the first time in seven or eight years. The grain crop is good, but low prices are anticipated. Farmers are ready to contract barley at \$1.25. The low prices will deter farmers from raising grain to very great extent next year. A number of farmers have already cut a portion of their grain for hay, thinking it will pay better than to thresh and to sack.

The detective, who has been trying for several weeks to detect the thief that got away with \$1,250 from Lem Allen, has given up the search.

G. L. Richardson has located the land on which Stillwater, the county seat stands, and is notifying occupants to vacate or pay rent.

### Drowned in the Owyhee

A few days ago a party of prospectors discovered the dead body of a man in the Owyhee river 14 miles from Tuscarora, in an advanced state of decompositon. Although the face was disfigured beyond recognition, the dress, contents of the pockets, and other circumstances enabled the party to identify the body to a moral certainty, as that of Patrick Mitchel, who left Tuscarora on horseback for Idaho several weeks ago. The fact that Mitchel was known to be subject to fits of insanity, and his horse returning to town a few days after he left, is considered conclusive evidence of the identity of the body.

### Murdered.

Railroad matters seem all out of joint in consequence of the burning of the Verdi bridge. The westbound overland is detained at Reno an hour to give passengers, mail and express matter on No. 1 a chance to be crossed. The train then runs up to the bridge, exchanges loads with No. 1 and returns to Reno for breakfast. The V. & T. train is held at this station until passengers from the west arrive. This makes trains east and south from two to three hours late every morning. A temporary bridge, however, will be in place and all this trouble over by to-morrow morning.

### Prepayment of Postage

A late order of the Postmaster-General provides that no package, parcel or letter will be forwarded upon which the postage has not been fully paid. This is an important order, and ought to be fully understood. If the card of the sender is on the package, such package will be immediately returned; otherwise, the addressee will be notified and requested to furnish the requisite amount of postage.

### A. O. U. W.

At a special session of the Grand Lodge, A. O. U. W., held at Gold Hill yesterday, a resolution was adopted instructing the Grand Officer to apply to the Supreme Master Workman to have this made a separate jurisdiction, just as soon as it has the necessary 2,000 members. There are now 1,992, with several sections to hear from.

### The New Stamps.

The portraits on the new postage stamps that come in use October 1st are: 1-cent, Franklin; 2 cent, Jackson; 3 cent, Washington; 5 cent, G. W. Field; 6 cent, Lincoln; 7 cent, Stanton; 10 cent, Jefferson; 12 cent, Clay; 15 cent, Scott; 20 cent, Hamilton; 9 cent, Perry.

### By All Means.

The Sandwich Island King will soon arrive in San Francisco, and the Appeal would have the authorities extend to his sable highness a formal invitation to come over and take a look at the wonderful footprints at the State Prison.

The big circus will be in Reno next Thursday.

## Charles And His Angelina.

They wandered beside the flowing river. Its waters shone like silver. The trees were full of birds. Nature was in its most enchanting moods. The sky trembled with the weight of evening stars, and Angelina's fresh young heart beat in rapturous expectation. Charles grew more tender as the light faded on the western hills. The voices of the children floated in soft silvery echoes across the fields, and presently the plaintive whip-poor-will began its heart-touching cry.

"My own precious love," said Angelina, her throat swelling with heavenly paroxysms, "am I to be with you forever and forever?"

"Yes" he replied.

"Am I to have no rival?"

"No never."

"Will you take me to see Calender's Minstrels?"

"Well, I shall see about it."

"So shall I; go and get another girl. You have lost me forever."

"But give me time, it is so sudden. Let me consult my father. He is a bank president I must not be rash, sweet Angelina."

"Stop! Stop where you are! I have heard enough. I shall marry Augustus Mortimer. He has bought seats for every night this week. He has nerve. He knows how to treat a woman. Father's dray will call for my presents to-morrow. Farewell, base coward, farewell!"

### Past Success Attra's the Past

Parties wishing to buy watches, jewelry, clocks, silverware or spectacles, will do well to call on William Goeggel before purchasing elsewhere.

Goeggel carries in his stock fine diamonds set in finger rings, ear-drops, lace pins, scarf pins and lockets, suitable for wedding and birthday presents. Keeps the celebrated Howard, Elgin and Waltham watches and sells under guarantee for the lowest figures. Call on Mr. Goeggel and learn his prices, before you buy elsewhere. Store on Virginia street, sign of the big stair case.

### Boy Shot.

A small boy named Ivy Fulton was shot at Gold Hill yesterday by Dave Hughes. A foot race was in progress at old Fort Homestead, and Hughes was the "starter," and used a pistol to start the men off. His first shot was up in the air all right, but then he became excited, and pulled the trigger again as the pistol was down, and the ball struck the boy in the abdomen. The boy was not expected to live but a few hours.

### The N. & O. Settle.

Jerry Schooling is not only liberal in the distribution of passes over the N. & O. Railroad but is equally prompt in the payment of his employees. Yesterday was "pay-day" with the Company, and all the boys had to do was to walk up to Paymaster McLaughlin's office at Gillette & Folsom's, and receive their pay. There will be no postponement of pay days while Jerry is at the helm.

The replevin suit of Nash vs. Lake was yesterday decided in the Justice Court in favor of Nash. The suit involved the title to certain goods levied upon as the property of Knox and claimed by Lake.

Sick and bilious headache, and all derangements of stomach and bowels, cured by Dr. Pierce's "Pellets"—or antiseptics granules, 25 cents a vial. No cheap boxes to allow waste of vials. By druggists.
